

## Case Study: Oops!

Emily was working in the lab on her programming assignment. She finished the program, submitted it, and went on to do some other work. Shortly thereafter, she left the lab.

Another student, Kyle, was working nearby. He knew that Emily had successfully submitted the assignment, and he had not been able to get his to work properly. When Emily left, he noticed that she had not logged out of her computer. He moved to her workstation, found the work under her Documents directory, and copied it onto his flash drive. He then logged out, logged in as himself, and copied the code onto his Desktop where he modified the program a bit, then successfully submitted it.

### Questions (7.5 min)

**Start time:**

1. Which, if any, of the students were at fault? Why?
2. Which specific Honor Code violations occurred?
3. What should Emily have done in this situation?
4. What options did Kyle have besides cheating?
